Alkem launches Perampil (Perampanel Tablets) at affordable prices and improved patient access for epilepsy treatment in India

- Perampanel is a broad spectrum anti-epileptic drug (AED) with novel mode of action by acting as a non-competitive AMPA receptor antagonist¹ and convenient dosing of once daily oral administration².
- On June 9, 2021 Alkem has launched brand Perampil containing Perampanel at affordable prices to make the treatment accessible to the Indian population.

Mumbai, India, June 10, 2021: Alkem Laboratories Ltd. (Alkem), one of the India's leading pharmaceutical formulation development, manufacturing, and marketing companies, announces the launch of Perampil (Perampanel) tablets 2 mg/4 mg/6 mg on June 9th 2021 to make the treatment accessible to patients and healthcare providers improving their quality of life. Alkem has launched Perampil, at 2 mg – Rs. 49/strip of 7 tablets, 4 mg – Rs. 180/strip of 15 tablets and 6 mg – Rs. 300/strip of 15 tablets, to improve patient access.

This product reaffirms Alkem's commitment towards improving epilepsy care by bringing multiple treatment options of quality products to patients and health care professionals in India. Alkem had also launched Brivasure (Brivaracetam) tablets in March 2021 for the adjunctive management of partial onset seizure with or without secondary generalization.

The drug, Perampanel, has been approved by the Drugs Controller General of India (DCGI), as an adjunctive therapy in treatment of partial onset seizures in patients with epilepsy aged 4 years and older and also as an adjunctive therapy in treatment of primary generalized tonic-clonic seizures in patients with epilepsy aged 12 years and older. Alkem continues to work persistently towards the production of top-quality products to improve patient access and quality of life for them.
